Help & Documentation*

This documentation is made by Kirti's Group!

1 Account creation

2 Node creation

3 Harmonized LandSat Imagery

Install the blob for working with harmonized images:

Use Conda to install rasterio (not pip): `conda install -c conda-forge/label/dev rasterio`

Use pip to install azure: `pip install azure-storage-blob`

Replace BlockBlobService with BlobServiceClient:

```python
from azure.storage.blob import BlobServiceClient # BlockBlobService
```

gen_CM_POP_data.R and **CodlingMothGenerations.R**

`/data/hydro/users/giridhar/giridhar/codmoth_pop/alldata_us_locations`

{`PPT`, `TMAX`, `TMIN`, `WIND`}
